Some muslim teachings promote oppression and a degree of bigotry e.g. attitude toward LGBT community and treatment of women.

Some Muslims do not want to integrate, and within some communities there is a very rigid medieval view of the place of women, forced marriage etc  
 There is no reciprocity towards christians in islamic countries

This is a difficult one; first, there is a proportion (not a majority though) of Muslims who do not wish to integrate and secondly, part of their religion is that their Qu'ran is the word of God. In our sense of religion we would 'believe' in a God

Too many Muslims are influenced against the British way of life by Islamists  
 We are of two different cultures
